Monistic understandings, however, are less able to assign full human value to non-functional persons fetuses, the brain-damaged than dualistic understandings, which can hold to the opinion that a human person is more than his or her functional capabilities indicate. One could, I suppose, eliminate the need for human substantive souls by attributing emergent powers to the substantive soul of God, via a convenient causal enabling of purely physical entities. Her assumption seem to be that if one can offer a plausible physicalist description. Prefer to skip ahead? DW added it Aug 12, While Hasker offers evolution as a minor support for his viewpoint, Nancy Murphy makes the evolutionary story of origins the central organizing scheme of most of her essay. Greg Stump added it Sep 09, This conviction lies behind the following passage: "When it comes to the persistence of bodies, I suggest we think this way.
