This made my day! If you know what type of firmware your router uses—DD-WRT, Tomato, etc—then that should point in the right direction with a Google search. NordVPNistheNo.

Windscribe is a relative newcomer to the free VPN scene, but its generous data allowance and commitment to protecting your privacy make it the best around if you need more data than the MB free tier with TunnelBear. A VPN's scrambling and unscrambling of your data can sometimes slow internet traffic to a crawl.

Any thoughts? They both can establish a connection to an ec2 OpenVPN server. Windscribe and Hotspot Shield suffered less than a percent average slowdown in download speeds.
