Although palpitations are very common and usually harmless, they can be frightening when they happen and may cause anxiety. Some people feel palpitations as a pounding in the chest or neck; others feel them as a general sense of unease.

Add your comments.

Heart palpitations can be frightening, especially when experienced for the

Diabetes: Some antidepressants reduce death risk. Small patches called electrodes are stuck onto your chest and attached to a recorder that you carry in a pocket or wear around your neck or waist.

To manage stress, try doing some deep breathing exercises, meditation or yoga.
